## EXPANDING THE COMPETITIVE EDGE

AIR, SPACE & CYBER CONFERENCE : September 16-18, 2019, National Harbor, MD

Gain new insights and be among the first to see the latest innovations in airpower, space and cyber capabilities at the Air Force Association Air, Space & Cyber Conference in National Harbor, MD. We will be demonstrating our IA-accredited video distribution/KVM system for command and control, certified to manage multiple classifications through a single switch. Also on display will be our Integrated Client Transmitter module, an all-in-one PC processor with KVM extender transmitter that provides an additional layer of security, efficiency and savings in back-racked computing applications. Be sure to stop by booth 114 to see it all, live! **LEARN MORE...**

VP, Federal Sales

## NEW CYBER RESILIENCE CENTRE

FUJITSU AUSTRALIA : For Federal & State Government Customers

Fujitsu Australia opened its doors to their new next-generation Cyber Resilience Centre located in their Fujitsu Canberra office. The new centralized cybersecurity model will provide 24/7 operational management of new Security-as-a-Service offerings and the continuous delivery of end-to-end security services for Australian federal and state government and the Department of Defence. Built to be compliant to the federal government "secret" level, the centre's main focus is cybersecurity, and with the use of Thinklogical KVM, the insider threat is mitigated and users are able to securely access multiple classified networks from a single workstation, with one keyboard, mouse and multiple video screens. **LEARN MORE...**
